

The Shiite propaganda that Saudi Arabia covered up a false moon sighting

As-Salaamu 'alaykum,

One of the senior scholars of this time, Shaykh Saalih al-Fowzaan, responds to the claims of an astronomer that the moon was not possible to have been sighted when it was sighted this year:

<http://www.bakkah.net/en/saudi-moonsighting-mistake-human-error-fowzan.htm>

A very important clarification for people who have been affected by the Shiite propaganda that Saudi Arabia covered up a false moon sighting, both this year and last year!

Turn back to your scholars and beware of putting important matters of your Religion in the hands of journalists and bloggers!
